QUARTERLY POPULATION STATISTICS REPORT

JANUARY 2000

APRIL 7, 2000

MANITOBA POPULATION ESTIMATES - January 1, 2000

101-04272/

	<u>January 00</u>	<u>October 99</u>	<u>January 99</u>
<u>POPULATION</u>	1,145,900	up 1,100	up 6,300
<u>NET MIGRATION</u> (January to December)		<u>1999</u>	<u>1998</u>
Interprovincial		-950	-2,801
Total		1,846	-1,355

Manitoba's total population was estimated at 1,145,900 persons as of January 1, 2000, an increase of about 1,100 persons from the October 1, 1999 estimate of 1,144,800. Since January 1, 1999, Manitoba's total population has grown by an estimated 6,300 persons for an annual growth rate of 0.6%, our best performance since 1987 when it was also 0.6%. Manitoba's 1999 growth rate ranked fifth when compared to other provinces. The annual growth rate for Canada was 0.9% in 1999.

Manitoba's net interprovincial migration loss totalled 950 persons in 1999, down sharply from the net loss of 2,801 persons in 1998. There was a small loss of 224 persons in the fourth quarter of 1999, about half the loss observed in the fourth quarter of 1998. Overall, our net interprovincial migration loss in 1999 was the smallest since 1984, when it totaled -49 persons. Manitoba gained mainly from Quebec (164) and Saskatchewan (154) in 1999 and lost primarily to Ontario (-668) and Alberta (-871).

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement are combined with interprovincial migration, Manitoba recorded a total net migration gain of 1,846 persons in 1999, the first time since the 1985 gain of 687 persons.

Slowing international migration has been one of the main drags on Manitoba population growth in the 1990's, despite a small upswing last year. The number of international migrants entering Manitoba peaked at 6,637 in 1990, but fell for most of the decade reaching a low of just 3,000 persons in 1998. Last year saw some recovery, with 3,715 international migrants entering the province.

MANITOBA POPULATION ESTIMATES - April 1, 2000

	<u>April 00</u>	<u>January 00</u>	<u>April 99</u>
<u>POPULATION</u>	1,147,600	up 1,700	up 6,100
<u>NET MIGRATION</u> (January to April)		<u>2000</u>	<u>1999</u>
Interprovincial		355	538
Total		1,018	1,143

Manitoba's total population was estimated at 1,147,600 persons as of April 1, 2000, an increase of about 1,700 persons from the January 1, 2000 estimate of 1,145,900. Since April 1, 1999, Manitoba's total population has grown by an estimated 6,100 persons for an annual growth rate of 0.5%. The annual growth rate of 0.5% ranked fifth when compared to other provinces and was below Canada's growth of 0.9%.

Manitoba's net interprovincial migration gain totalled 355 persons in the first quarter of 2000, less than the net gain of 538 persons in the first quarter of 1999. Manitoba gained mainly from British Columbia (190) and Saskatchewan (402) during the first quarter of 2000 and lost predominantly to Alberta (-203).

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement are combined with interprovincial migration, Manitoba recorded a first quarter net migration gain of 1,018 persons in 2000, which is close to the net gain of 1,143 persons in the first quarter of 1999.

Net international migration accounted for 60% of the total net migration of 1,018 persons. In the first quarter of 2000, net international migration totalled 615 (854 immigrants versus 239 emigrants).

MANITOBA POPULATION ESTIMATES - July 1, 2000

	<u>July 00</u>	<u>April 00</u>	<u>July 99</u>
<u>POPULATION</u>	1,147,900	up 1,600	up 5,300
<u>NET MIGRATION</u> (January to July)		<u>2000</u>	<u>1999</u>
Interprovincial		-549	-694
Total		1,415	1,264

Manitoba's total population was estimated at 1,147,900 persons as of July 1, 2000, an increase of about 1,600 persons from the April 1, 2000 estimate of 1,146,300. Since July 1, 1999, Manitoba's total population has grown by an estimated 5,300 persons for an annual growth rate of 0.5%. Our annual growth rate of 0.5% ranked fifth when compared to other provinces and was below Canada's growth of 0.8%.

Manitoba's net interprovincial migration loss totalled -549 persons in the first two quarters of 2000, slightly less than the net loss of -694 persons in the first half of 1999. Manitoba gained mainly from Saskatchewan (477) during the first half of 2000 and lost mainly to Alberta (-435), Ontario (-440) and the Atlantic Provinces (-207).

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement are combined with interprovincial migration, Manitoba recorded a net migration gain of 1,415 persons in the first half of 2000, which is slightly higher than the net gain of 1,264 persons in the first half of 1999.

It should be noted that Statistics Canada has released revised population estimates for Canada, the provinces and territories. The revised estimates cover the time period from January 1, 1998 onward. This MBS report incorporates all revisions.

MANITOBA POPULATION ESTIMATES - October 1, 2000

	<u>October 00</u>	<u>July 00</u>	<u>October 99</u>
<u>POPULATION</u>	1,148,700	up 800	up 4,900
<u>NET MIGRATION</u> (January to October)		<u>2000</u>	<u>1999</u>
Interprovincial		-1,717	-1,211
Total		1,082	1,255

Manitoba's total population was estimated at 1,148,700 persons as of October 1, 2000, an increase of about 800 persons from the July 1, 2000 estimate of 1,147,900. Since October 1, 1999, Manitoba's total population has grown by an estimated 4,900 persons for an annual growth rate of 0.4%. Our annual growth rate of 0.4% ranked fifth when compared to other provinces and was below Canada's growth of 0.9%.

Manitoba's net interprovincial migration loss totalled -1,717 persons in the first three quarters of 2000, slightly more than the net loss of -1,211 persons in the first three quarters of 1999. Manitoba gained mainly from Saskatchewan (300) during the first three quarters of 2000 and lost mainly to Alberta (-890), Ontario (-712) and the Atlantic Provinces (-320).

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement are combined with interprovincial migration, Manitoba recorded a net migration gain of 1,082 persons in the first three quarters of 2000, which is slightly lower than the net gain of 1,255 persons in the first three quarters of 1999.
